

Ryedale Woodturners

News Bulletin 25 - 18 June 2023

Hello all

Mainly second hand equipment sales this week. A couple of general points first.

Apple wood

I put a picture of an apple wood bowl in last week's bulletin. Did anyone else make anything from the apple wood that Michael Bennett brought to the club back in January? The man whose tree it was would be interested in seeing anything made from it.

Chestnut Products – last call

A reminder if anyone wants any Chestnut Products and can wait until our next meeting, I will putting in an order early this week. 20% off retail prices and no postage.

Lathe for sale – Nova DVR XP

Former club member Steve Etherington is downsizing his workshop, and has a Nova DVR XP lathe for sale. This is the same model as the one use at the club for demonstrations, and indeed the same as the one I have, and a few other members have.

He has put all the component parts in a "pall-box". *The contents of the box are the main headstock of the lathe with bed, bed extension, tail unit, tool rest, genuine Nova stand and an outrigger fitting, drive centre, live tailstock centre and faceplate. This lathe of course has the swivel head. All the nuts and bolts are there too. There is also even the original instruction booklet enclosed.*

Incredibly he only asking £545 for this, to include delivery if required (it is quite heavy). A seriously good bargain for someone! Steve is in Beverley. You can contact Steve via email sether@sether.karoo.co.uk

Planer thicknesser for sale – Woodstar Pt85

Steve also has a planer thicknesser surplus to requirements. *Unused. Purchased from Snainton as an ex-display model so it was unpacked, but all the bits are there including the instruction manual. It would require collection from Beverley.*

I have one of these as well, and it does the job pretty effectively whenever I have needed it.

Again a bargain price – just £35, though this one will require collection from Beverley. [Contact Steve](#) if interested.

Donated items for charity

I have some more of my brother-in-law's old machinery to clear out. Mainly hobby level equipment, hence the lowish prices. Any proceeds will go to the Sue Ryder charity. Items can be collected from me in Thornton le Dale, or you could reserve them and I could bring them to the next meeting. Any reasonable offer accepted – they need to find a home. [Email me](#) or phone 07881209459. First come first served.

Ferm morticer, with all parts £20. Draper TS210 Hobby table saw 8 ¼" blade. Remarkably quiet £10. Powerbase router £10. Wolfcraft router table with router attached £20. Black & Decker jigsaw £10.

Gallery

No submissions this week, so here are a couple of recent trophies from my son Daniel. A house shield, a memorial trophy, and a cup for a running event down in Bristol – hence the bridge. Oak 14", oak 10 x 12" and sycamore 6 x 7".
