

Ryedale Woodturners

News Bulletin 15 - 13 April 2024

Hello all

Competition success

Congratulations to Martyn Weller, who won 2nd prize in the Axminster Tools 'Make It In March' woodworking competition, earning himself a £250 Axminster Tools Gift Card. The piece was the **Happisburgh Lighthouse Lamp**: *inspired by coastal memories, this scaled masterpiece features segmented wood turning and three authentic Fresnel lenses. It emits a gentle beam, just like real lighthouses.*

Ian Ethell Demonstration Video

A video of Ian's multi-axis honey dripper demonstration is now available on You Tube <https://youtu.be/tZs7FoHtmPU>.

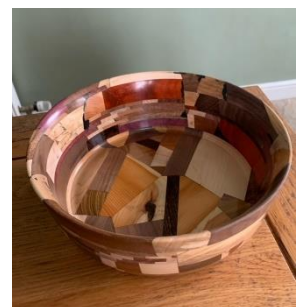

Gallery

Phil Smith sent in a photo following Ian Ethell's demonstration.

Ian so inspired me with his multi axis project last Thursday that I just had to have a go on Friday. The result is not perfect, but I think it's great.

Ever wondered what to do with all those offcuts? Martyn's solution is to glue them all together and turn them into a "chaos bowl".

Hands On Day Ebberston 13 April 2024

21 members gathered at Andy McLaughlin's workshop in Ebberston for a very enjoyable day's woodturning. The more experienced members guided those with less experience through some of the skills and techniques. A very sociable event as well as being instructive.

Many thanks to Andy for being an excellent host and sharing his workshop with us. I believe he is putting in a planning application to build a new car park for future events! Thanks to Geoff for organising the event, the machinery and the people. And thanks to everyone for tutoring or listening. The next event will be at John Lund's in Broughton, near Malton. Details to follow in the coming weeks.
